

At Fjords, we take immense pride in crafting timeless, Scandinavian-inspired furniture. Each piece is meticulously designed to blend aesthetics, function and full-body comfort. They also offer enduring quality, assuming the furniture is taken care of properly.

To ensure your Fjords furniture retains its original allure and performance over the years, we've put together an essential product care guide.

Follow these simple furniture care maintenance practices to enjoy the beauty and comfort of your furniture for many years to come.

Fabric-Covered Furniture Care

Fjords offers a variety of non-leather material furniture options. In the furniture industry, the four qualities to look for are composition, light fastness, pilling and Martindale rub (abrasion resistance). In addition to regular wear and tear, these qualities can affect how long your furniture maintains its good condition. At Fjords, we are consistently above industry standards for all four qualities.

Tips to keep your Fjords fabric-covered furniture in optimal condition:

- **Regular Vacuuming:** Use the upholstery attachment on your vacuum cleaner to remove dust and prevent it from settling into the fibers. This should be done weekly.
- **Quickly Clean Spills:** If a spill occurs, quickly blot it with a clean, dry cloth to prevent it from soaking in. Do not rub as it may cause the stain to spread or deepen.

- Professional Cleaning: We recommend professional cleaning for a deep clean every 12-18 months or immediately if a stubborn stain occurs.
- Avoid Clothing Dye Mishaps: Be careful when wearing new clothes, as darker-colored dyes can transfer onto lighter-colored fabrics.
